

## **Introduction to AutoCount Academy**

AutoCount is being recognized by many users and software seekers in Malaysia as one of primary choices of business application. Increasing demand for easier accessible learning resources signifies the need to offer such facilities to the public. AutoCount Academy is created and provided by the principal, Auto Count Sdn Bhd, for the benefit of all interested learners to learn and explore the most popular AutoCount software products, including AutoCount Accounting, AutoCount Cloud Payroll, AutoCount POS...etc.

### **Free Self-Learning Platform**

AutoCount Academy is built using Moodle – an open-source learning platform. It provides courses and learning resources for FREE. What you need to do is just go to [academy.autocountsoft.com](http://academy.autocountsoft.com), create an account with your email address, login, pick up a course from the list of available courses, and start learning at your own pace. It is totally free of charge except if a learner wishes to request for Certificate of Completion (when applicable), a processing fee will be charged.

### **Available Courses**

Courses are categorized by product in nature, e.g. Accounting, POS, Payroll... and made available to all login learners. An exception to this is the category of For Dealers, which is made available only to relevant AutoCount Authorized Dealers. The list of available course shall be updated from time to time and basically courses in high demand will be prioritized.

### **Live Training Sessions**

AutoCount Free Online Classes will be scheduled every month and made available to all login learners. Check it out at event calendar and plan your scheduled accordingly. To participate in such live sessions, just Join the event 5-10 minutes before it begins.

### **Certificate of Completion**

Some courses offer Certificate of Completion to those who has fulfilled the requirements. To apply for such certificate, a learner will need to pay a processing fee (provide proof of payment) and fulfil all requirements as specified in the topic of Certificate of Completion. Verification shall be carried out by the course administrator and the certificate shall be shipped to the learner based on the delivery address provided by the learner.

### **Targeted Learners**

In general, the platform is open to all that are interested in learning AutoCount software. It shall be useful for existing and potential software users, working adults, accounting freelancers, job seekers, graduates, AutoCount dealers, trainers, lecturers and students.

## Welcome to AutoCount Academy

Here you can find self-learning courses that are specially designed for those who wish to learn how to use AutoCount software.

And it is **FREE**.

We shall keep uploading new courses and resources from time to time.

Just pick a course that interests you, and learn it at your own pace using provided resources and activities.

Happy learning.
